Shipping Weight: 2.6 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars 34 customer reviews

Best Sellers Rank: #643,871 in Books (See Top 100 in Books) #187 in [Books > Crafts, Hobbies & Home > Crafts & Hobbies > Wood Crafts & Carving > Carving](#) #845 in [Books > Crafts, Hobbies & Home > Home Improvement & Design > How-to & Home Improvements > Woodworking > Projects](#) #2855 in [Books > Engineering & Transportation > Engineering > Industrial, Manufacturing & Operational Systems](#)

Customer Reviews

You can practice on a piece of wood just starting out (Brownell's seems to offer nice hand checkering tools). Or you can get a custom stockmaker to make a pattern of your choice by sending pictures from this book. Seems like the borderless skipline is the most difficult. I have it on a few of my guns, but did not pay the high price to put it in the stock!

Wish the art was in color.

Adding to my library!

excellent product and service. best I yet experienced on . could not have asked for or expected better quality and service. chris

Excellent Content - a true industry standard book, but the Kindle version appears to be just a PDF copy, making the photos and example diagrams very difficult to see detail clearly, and with thi9s

topic, it's all about detail. My recommendation is that everybody must own a copy of this book, and it should be the traditional paper copy.

Very informative and easy reading practical is carving is something one's interested in ...

exactly what was offered. I am very satisfied.

If you are a collector or restore antique muzzleloaders this is absolutely a necessary reference. Detail of how to checker wood are great for the student or pro gunsmith. A wealth of information and well presented. Monty Kennedy is a genius.
