The Ultimate Book Of Optical Illusions

Synopsis

Prepare to be amazed! Inside the covers of this incredible, colorful collection are hundreds of the world's most powerful optical illusions. They're beautiful to behold, and stunning in their trickery. Some of the mind-boggling images seem to spring into action, vibrating, pulsing, and spinning like a hula hoop. Other ambiguous illusions feature two subjects in one: the fun is in finding them both in the single picture—including a mouse playing hide and seek in a cat's face and a strange desert mirage where palm trees imperceptibly morph into camels. And still more, like 'The Impossible Terrace' which couldn't exist off the page: just try to figure out if you're viewing the space from above or below. Every one is astonishing.

Customer Reviews

Got this for my tween daughter for Christmas & she loved it (well, at least it grabbed her attention for about a week or so, which at that age is amazing for any gift!). It really was a conversation starter and was passed around quite a bit during the holiday. Was cool that my 10 yr old, along with myself & the grandparents all found pages in the book of interest - really spans the ages. Book is set up where each page has a different "style" of illusion & it gives the name of what that type of illusion is called. Eye-tricks & hidden pictures on each page was fun to skim through. Great for the price, under \$9 shipped.

Great for the sensory deprived. Sent to a loved one on death row who sits in a cell 23-24 hours a

day. He thought it was cool how things "moved" on paper.

Kids love it! (I buy for an elementary school library) However, it's so badly made that pages fall out. I first bought it in paperback, and it fell apart. So I bought the much more expensive hardbound version. It lost pages faster than the paperback version. It's pretty wonderful, but DO NOT spend the extra on the hardbound version. Because it is going to start dropping pages.....

Excellent book. It is different from the others, but my niece loved it. Would buy again.

thank you... as promised

Another great book for the curious.

I bought this book for my 8 year old daughter. She loves it!! Super cool illusion all throughout the book.

Lots of fun to look at.
