Safari, So Good!: All About African Wildlife (Cat In The Hat's Learning Library)

Synopsis

In this latest installment of the Cat in the Hat's Learning Library, the Cat takes Sally and Nick to Africa—where they meet some really big cats—and all sorts of other animals, too, including elephants, zebra, giraffe, hippos, warthogs, buffalo, baboons, side-striped jackals, spotted hyena, galagos, pythons, vipers, and six kinds of antelope! Young readers will learn how animals are either predators or prey, that elephants tend to favor one tusk over the other, how to tell the difference between a white and black rhino (both of which are grey!), that lion cubs are born covered with spots that soon disappear, and much, much more! Fans of the new PBS preschool science show The Cat in the Hat Knows a Lot About That! (which is based on The Cat in the Hat's Learning Library) won't want to miss this wild new addition to the series!

Book Information

Lexile Measure: 0660 (What's this?)

Series: Cat in the Hat's Learning Library

Hardcover: 48 pages

Publisher: Random House Books for Young Readers (August 9, 2011)

Language: English

ISBN-10: 9780375866814

ISBN-13: 978-0375866814

ASIN: 0375866817

Product Dimensions: 6.8 x 0.4 x 9.2 inches

Shipping Weight: 7.2 ounces (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars 42 customer reviews

Best Sellers Rank: #37,697 in Books (See Top 100 in Books) #26 in Books > Children's Books > Education & Reference > Science Studies > Environment & Ecology #27 in Books > Children's Books > Geography & Cultures > Explore the World > Africa #60 in Books > Children's Books > Growing Up & Facts of Life > Health > Diseases

Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

Bonnie Worth is the author of countless books for young readers, among them the Cat in the Hat Learning Library books If I Ran the Rainforest, Great Day for Pup!, Oh Say Can You Seed? (winner of the 2003 Ohio Farm Bureau Award), There's No Place Like Space!, Wish For a Fish, Oh Say Can

You Say Di-No-Saur?, and Would You Rather Be a Pollywog?

Read this book before reading aloud to very young children. While reading to a 3 year old I ended up skipping sections including: defining predators and prey; fast antelopes living and slow ones not; carpet vipers injecting poison and hiding in weeds, etc. At the same time I bought the Weather book and it was excellent and great for a toddler.

My 3-year-old son really loves Cat in the Hat books so I went looking for as many as I could find on . This one was a good price and is all about African wildlife. It's written in rhyme and the illustrations are fun and vibrant. What I really like though is that it's very educational. There are things in it that I didn't even know. My only critique is that it's a little wordy compared to other Cat in the Hat books so sometimes my son won't sit through the entire reading.

This was such a fun book for my kid to read. He had a smile on his face the entire way through the book. And then after he was done he was cracking up laughing. And then.... he read this book again for more times in a row. I cannot say enough good things about Dr. Seuss books. They can keep the kids attention, they are super fun.

My daughter loves animals and she is learning from this book (and Im learning new things too heh!). Love Seuss!

Great detailed and highly educational illustrations and text. My son adores this series and I feel like he learns a great deal from these books...heck, let me be honest, I learn a lot from these books too. :)

This book is a hit at our house. At times the rhyme is forced and the cadence of the sentences trips up a bit, BUT after reading an average of 5 times a day for the last two weeks, it is still one of my son's favorites (and I've figured out where to put emphasis to get the rhymes and rhythm to work...well, at least to work better). He loves learning about the different animals, and the information goes beyond surface level. Sometimes the vocabulary is a bit advanced and not always defined, but I like that it stretches him a bit. Learning to ask what words mean is a good skill to have, and I have found that people are very impressed when a three-year-old accurately uses words like tawny and herbivore. There is quite a bit of text per page, which is great because it gives more info

about each animal but could be challenging for kids who are not used to longer sections of text. Since each page or so presents a new type of animal, you don't have to read the whole book at one sitting, which it could be helpful for working up to reading more words per page. Although I tend to prefer nonfiction books that have photographs, these illustrations are playful and bright, which helps the book feel more like a "fun," fiction book than an educational one. All in all, I love that my kiddo is excited about learning--both information about animals and vocabulary so this book comes highly recommended from our family.

Very cute book where you learn about lots of animals you might actually see on an African safari, from small animals, to antelope, lions, and even elephants! My 3 year old absolutely loved this book and asked a lot of questions. I was happy they talked about predators and prey and did not leave that knowledge (all be it a bit gory) out. Very good book to learn about African wildlife.

Good Dr Seuss book!
