great resource for all types of music and covers many many decades of music complete with chords. The index is displayed alphabetically, by decade and by singer.

gives the basic notes and chords of a tune, if I remember correctly.so as to fake it on stage...thats why its a fake book..."right"

Many songs, but did not have lower ley than "C".

As described! Having a thrill playing all the great songs from so many decades on my flugelhorn!

Part of a set purchased for a small group to play.

My students practice exercises and during some sessions, we'll play music from one of our Fake Books. This is a very Extensive collection of cool music.

Lots of songs i never heard of, but enough to keep me busy

This book seems to have every tune I've ever heard, and a lot that I haven't. A good book to have around, even if it's just to play through the melodies for relaxation.
