“This simplified version of Diesen and Hanna's *The Pout-Pout Fish* (2008) is appropriate for babies and toddlers . . . Simple and sweet, this tale offers the lesson that sometimes, all that's needed for a turnaround in mood is some cheer and encouragement to change our perspective. The clean, uncluttered illustrations are kept simple, except for the pout-pout fish's features, which are delightfully expressive. Little ones will easily recognize and likely try to copy the sad, scared and angry looks that cross the fish's face. An upbeat early book on feelings with a simple storyline that

little ones will respond to. [Kirkus Reviews](#)

Granddaughter loves this little book about the pout pout fish. I tell her to put on her happy face when she pulls this book off our bookshelf. Great for her little hands to hold too. Love when she tries to read it herself after hearing it about 100 times!

We are Pout-Pout fans and the youngest member of the fan club (1 1/2) loves the pictures and page turning. He now has his own book as we go over the longer version and he can turn pages back and forth. Everyone enjoys. Thanks for coming up with a simplified version for littler folks.

I absolutely love everything pout pout fish! Super cute rhyme, catchy easy to remember and really helps when you really do have a little pout pout fish on your hands. Make them smile most of the time too!

I bought this book for my 2 year old who absolutely adores the original Pout Pout fish book. She still likes this one but not nearly as much. It is much simpler than I expected with only one very short sentence per page compared to the paragraph a page in the original book. Definitely take a look at the editorial review section on [Amazon](#) for a better idea of what the pages look like (this wasn't available when I purchased mine)

This is an abbreviated book in comparison to the other released Pout-Pout fish books. It is perfect for in the car or on the go, and satisfies my one and three year old when they start begging to read a Pout-Pout fish book. We have a Pout-Pout fish plush and the previously released books, so this third one is a welcomed change. I also like that it is a board book, since my other two have suffered from being read so often. I literally have taped pages back in that were completely torn out. If you haven't heard of this series, I feel like you would like it's catchy beat and positive morals. Plus there is a great Youtube video that compliments the first book, which is great when you don't have time to read it yourself. Overall - I love Deborah Diesen and her fun characters!

I didn't realize this wasn't a full length book. Its ok, but I prefer the longer length adventure stories of the series.

Bought this for my Great grandson, Caden before he was born. His pop-pop has been reading it

since he was born. This is a new one because the first one is falling apart.

Not as good as the original book. But still fun to read to my granddaughters. It is much shorter.
