I love these kinda creepy but awesome coloring books. I love coloring a wide variety of books. Jade Summere books have such a wide variety of things to color from. If you love spooky, creepy and fun

then you don't want to miss out on this book.

This is a disgustingly fun book. I wouldn't recommend it to anyone that gets squeamish with worms or brains or most anything else but for those of us who like a bit of ghoul in our daily lives I would say this is a fun book to color.

Whoever came up with all the designs for this book really has a great understanding of what is horror, gore, and the macabre. The pictures are amazingly detailed, and I found some so gory, that it could make some queasy. This is an excellent coloring book to have in your collection if you are looking for something different, and certainly in a horror theme. As is the case with Jade Summer's coloring book, each picture is on its own page and has a black backing so you can use whatever coloring medium you prefer without bleed thru. Also, you get 2 copies of each picture so you can color each differently or use a different medium for the second copy.

Excellent designs. Printed on one side, pages are black on the back. 15 different designs with a duplicate of each. Well constructed. There's a digital copy available from the publisher when you purchase, which is awesome.*This book has about 10 less designs than the normal Jade Summers coloring book. Still a good value, but I wanted more designs.

I adore this book! I looked around for a while before making my first adult coloring book purchase. The moment I saw this one I knew it was for me. The pages are great, and the drawings are twisted, a touch sick, and endearing in all of the worst ways. If you are a bit off and like the strange and unusual, this is the book you are looking for.

I love this coloring book and I got one for my coworker . We both have the same taste in a few things.

cutest gory coloring book, definitely recommend!

Awesome book I absolutely love it and I recommend it for anyone who loves to draw or color. It also has two pages of each sheet amazingly and well drawn I. Jade Summer makes great illustrations in her books. Great.
