Scandinavian Design In The Doll's House

Synopsis

Delightfully child-like in some ways, perversely obsessive in others, this richly illustrated book is a fascinating journey in miniature through the changing trends in Scandinavian interior design in the second half of the 20th century. An astonishing amalgam of the Swedish folk art of miniature-making (called folkhem) with a vogue for minuscule Modernism. These doll's houses are complete from Arne Jacobsen chairs to wallpaper to period toilets and kitchens. Gorgeous full-bleed photos put you right into the center of these remarkable, mint-condition dwellings, built by three important Swedish toy makers, BRIO, Lundby and Micki Gemla. This book has the potential to be a cult classic.

Book Information

Hardcover: 272 pages

Publisher: Arvinius Forlag (April 15, 2012)
