This book is very educational not only for plus size but for anyone. It teaches plus size person how to be confident in their own skin along with giving ideas on how to experiment and have fun with it. It goes to show size doesn't matter as long as you are willing, open minded and able it is possible. Have fun.. sex is should never be boring, it is about having fun and trying new things while making memories.

What a boost of confidence this books gives you! It is wonderful and so helpful!

This book is AMAZING, and despite the title, you don't have to be a "girl" or curvy to use this book. It works for men, women, and genderfluid people, of ALL shapes and sizes. Also includes tips for accommodating bad backs, shoulders, gimpy knees... The drawings are wonderful, and the names of the sexytimes positions had me laughing out loud. Also, getting out a pencil to check off the ones I've tried, but with 101, I found many I hadn't. #sexgoals This book goes into anatomy, toys, and the aspect of getting into a sexy mindset. Sometimes people give up on sex, or love, because we might think that our [insert bodily imperfection here] means we don't DESERVE sex, or love. No. We all deserve those things (if we want them). We don't have to give up sex because some parts are large or don't work the way they used to, we just need to know how to accommodate them, and this book shows us how.

Like many other women, I struggle with body confidence and don't always felt comfortable in my own skin. My nose is too big, my belly hangs over my pants and my butt is big and flat all at the same time. Elle Chase says "I hope this book will show you how to own and accept your body the way it is right now..." And I certainly hope that it does. I love the thought process in this book. Right off the back there is so much detail and info from explaining the pronouns she uses to the reasons behind the adjectives she uses. So much thought and effort went into making any and all readers feel comfortable and I love it! 10 chapters, 101 positions for hot, sexy, body confidence building sex! I'm a thick gal and cannot wait to try all 101 of these positions as the receiver and maybe a few (or a hundred) as the giver. Elle Chase is an amazing sex positive influence in our world and I'm so glad I was able to review her brand new book! - shortened version of the full review found at carasutra.com, by Pleasure Panel member Eliza93Marie

If you are a curvy girl this book is a must have. So fun and uplifting, this book makes me feel fabulous

about all my curves. I learned a few new tricks concerning positions, sex toys, and what feels good for me. Thanks Elle Chase for serving us big girls so well!

This book is a wonderful resource for curvy girls and their partners looking to incorporate both different positions as well as toys into the bedroom. The style is inclusive of anyone of any gender who identifies as a "curvy girl" and the writing style is accessible and fun, with lots of ideas and variations along with illustrations to demonstrate exactly what Chase is talking about. This is definitely not the s-x education most of us were taught in school, and will be useful to anyone looking to add variety to their intimate life. In addition to all the positions, there's advice on lube, dirty talk, anatomy, and other related topics that make this an excellent book.

Is some of the info common knowledge for bigger women? I would hope so. However there's also info that I wasn't familiar with. The positions are demonstrated with tasteful drawings. The toy section was enlightening (although my favorite wasn't there, most likely because this book went to print before it was widely known or available). I'd put this book as a must read for those of us who are BBWs and the people that love/lust BBWs.

Curvy Girl Sex is a fantastic read for anyone looking to love their body and explore new positions! Don't be fooled: This isn't just a book of sex positions. It's much more, because there's more to having great sex than just understanding the physical mechanics of it. Curvy Girl Sex has some fantastic sections on self love, self lovin', sex toys, erotica, and a fantastic resource section to provide readers with hours of further learning. I also appreciate that Curvy Girl Sex makes an effort to be inclusive in more ways than one -- she considered not only gender and pronouns but also disability and how body size, shape, and ability can affect your sexual experience. I'm a straight-size (ie: not plus-size) girl, but because I have bad knees and an iffy back, I found the inclusion of knee-friendly and back-friendly positions (as well as symbols and a legend to help you identify them) incredibly helpful. This isn't just another sex positions book. This is a book about how to own your sexuality and discover amazing new ways to please. **I received an advance copy in exchange for a fair and honest review. **
