Garden Pools, Fountains & Waterfalls

Synopsis

Enhance a garden with the soothing sights and sounds of reflecting pools and other imaginative water elements. *Garden Pools, Fountains & Waterfalls*, a new edition of a Sunset bestseller, provides all the information needed to build everything from small-scale fountains to inviting ponds and flowing waterfalls. Includes step-by-step photographs, a practical guide to tools and materials, and recommendations for fish and plants.

Customer Reviews

great book

This was a birthday gift for my daughter. She loves to look through the book for ideas for her yard. Right now her yard is kid-friendly but it doesn't always have to be that way. She looks and thinks and dreams. I can't wait to see what she decides and I hope I can be of some help. The pictures are beautiful, the instructions look good and there are a lot of choices.

It has some good ideas and does a good job of describing Koi and Goldfish for ponds. It is an excellent book when you are starting out. I bought it used and it was in fine condition for my purposes.

as indicated in the title, this book approaches water features as decorative items, as opposed for example to pond books which focus on the fish. lots of design ideas, pictures, and concepts to make you think. a good section on pond planting, although i would have liked to have Sunset's climate zone ratings for the plants. light on things like detailed construction.

NICE book! Great pictures of the process and finished projects. There are many tricks and tips regarding the layout of your "water" project and what equipment and tools you will need. Also, this book describes plants and fish that will thrive in your water garden or pool. This book was definitely worth the money and I know it will be my "go to" reference guide as I change my flower garden into a water garden.

Exactly what I was looking for, informative.

Gave it as a gift. Good book for answering basic questions for putting in garden pools or waterfalls.

Very informative if trying to great a small garden pond
