We love all the research guides for MTH. They are written at a higher Lexile level than the stories but it makes them fun to read together. My 6 year old doesn't have the patience to read through a research guide the entire way through on her own but together it makes for a fun project...she gets to tell me about what happened in the story to Jack & Annie and together we learn some fun facts about whatever time/place the story was about.

I received all 4 books great

Very informative and interesting reading

Excellent resource

Awesome series for my 4 1/2 year old son. We love the stories, but I especially love the research guides that go along with the stories. I love seeing my son so interested in learning!

8 year old son enjoys reading nonfiction books about animals and says this book is "great!" He enjoys the animal facts and the drawings.

I used this book to teach inquiry circles to my second graders. They enjoyed learning about polar bears and teaching their classmates.

Excellent
