Rumi Soul Healer is a story for our times. It's a Transcendental Story of Ecstatic Passion and Mystical Love that is envisioned by the author as a healing balm for the much troubled voices of our civilization.

Paradigm shifting scientist and author, Gabriel Iqbal's personal journey has brought him up close and personal with the ravages of war and violence just as Rumi had faced. The author shows the relevance for a reinvention of Rumi to heal the crisis of our modern world as all too timely and prudent. Rumi's poems are written in Persian and it also reflects in this work that Gabriel not only knows the Persian language but also understands its nuances and gem like meanings. Gabriel has studied Persian metaphysics in its contextual finesse, hence his work on Rumi is a direct source reference to the intuitive world of Rumi. The author believes that the best of Rumi is yet to come and we are in the middle of a global shift in human consciousness and that it's no coincidence that Rumi is the most read poet in the world. More than anything else we all need healing and Rumi's ecstatic passion as conveyed via his poems are the curing antidote for the diabolical, perplexing and bewildering life of our times. At this stage of our evolutionary development, we are in a sort of an adolescent period. Hence the traumatic upheaval and the resultant need for healing our challenged spirits. Rumi Soul Healer is a beautiful solace to the parched souls of our time. It is exciting, radiant and jubilant... thus bringing fresh inspiration, cheer and joy to the reader. It's like a companion that warms your heart and stays at your side whenever the waves of life toss you into challenging and uncharted realms.

• "As you live Deeper in the Heart, the Mirror gets clearer and cleaner."

Customer Reviews

I love Rumi and this is a great introduction to him and his work.

Never got this!

A remarkable book that transcends the limitations of Rumi Translations and Renditions. Rumi is a complex topic with all the intricacies of the ups and downs, ebbs and flows of prose, poetry and flow. I have a number of favourite versions of Rumis translations and while each one of them holds its own status, I am pleased that Gabriel in his book has provided a different perspective about

Mevlana Jallaludin Rumi, his life and works. Rumi not only provides a new way of thinking, that in all fairness is not new, but also helps us slice our modern complicated lives and make sense of where true peace of mind resides. In all of Rumi's words, his infallible love for his creator and beloved always stands out while still holding the ground for mystic lyrics that can set your soul free. I find Rumi Soul healer a very relevant name for this book as Rumi's work is nothing but Soul healing after all. I would highly recommend this book if you are looking at adding to your knowledge about Rumi or getting to know him from a different perspective. This book may also serve as an introduction if you are new to Rumi and would like to introduce yourself to his approach to mysticism.

This book has been a beautiful companion. It has helped me heal via compassion and a perspective shift in my understanding of life's challenges. Especially the way Gabriel has explained the Principles of Life by Rumi is fascinating and powerful. I have shared this with my friends and family as they have been curious to know what has caused the positive and healing shift in my perception of life.

One of the best in the market about Rumi with very smooth and fluent text for all readers. Another book from savvy and highly educated author, Gabriel Iqbal which shows his deep understanding about the Eastern culture and science. I strongly recommend this book and also this author!

Rumi as never seen before through the eyes of a mature author, poet and humanitarian - Gabriel Iqbal. Rumi Soul Healer can be read by anyone in search of inspiration and healing and we all need a lot of that. Beautifully written to bring into light coexistence and well-being on planet earth.

I am in love with the poems of Rumi and this book has given me a beautiful insight onto the actual life of this globally well-known sage. Rumi heals the deepest wounds by turning you into a universal being.

This book has a healing message for our troubled times. It melts away the heaviness of life and warms the soul.
