## Customer Reviews

Using the ketogenic nutrition plan has been great for my stomach issues. I haven't had stomach pain since I started. The book gave me all the info I needed and I supplement with RapidKetosis ketones until my body could make ketones itself. It similarly gives recipes that are definitely not hard to design and astoundingly delicious. It was definitely not hard to read and get it. Envisioning starting the eating schedule! I'll reveal to you how it goes!

The book has amazing info packed into this book. Great for people started on the keto journey or for people like myself that needed a little variety added to this lifestyle change. The book is also well written and easy to follow.
