Grade Level: 3 - 6

Customer Reviews

Bought these for students to read during lunch. I work at an elementary school and when the students are finished eating, they are bored. Proving some light/funny reading has always been a passion of mine - I don't mind how or what they read as long as what they're reading is appropriate and they're reading. These books are funny appropriate, and leave the students guessing. Now, they argue over who gets to read aloud. Love it.

My seven year old daughter absolutely loves this book. She is constantly reading us jokes from it to the point that she drives us nuts! I like that she loves reading the jokes and it seems to never get old for her. The jokes are a little less corny than in other joke books. I highly recommend this book.

This is really more of a joke book. Overall it is pretty funny but I was disappointed because I was

expecting riddles (along the lines of the type that Bilbo & Gollum throw back and forth in The Hobbit).

Nice book for the younger crowd...

Ordered this book for a young family member and it is a wonderful book. Bought the book years ago and still love it now. A must for any family with young children or grandchildren.

I was looking for a riddle book I could use with the residents at the assisted living facility where I work and this book really fits the bill. Although the riddles appeal to children, the seniors at our facility get a kick out of trying to solve them and they enjoy them even though they're silly. I would recommend this book for anyone who likes riddle-solving and wants to have some light-hearted fun.

Great gift, but be ready for the kid to inundate you with one silly riddle after another.

My son loved this book when he was born, and 39 years later, his daughters love it too. Amazing to last this long. It's a classic.
