How To Disappear And Start A New Life: How To Get A Complete New Identity Legally, How To Delete Yourself From The Internet

Synopsis

My name is Raymond Phillips. I graduated in 1996 with a bachelor's degree in criminal justice. After graduating, I went to work for a private security firm as an analyst and during my time there I was assigned to a big corporate client who was involved in some illegal activities and unfortunately I was exposed to their actual act of crime. Afterward, I found myself running for my own safety and had to disappear seven years ago. Just two years ago the issues were finally resolved as they got exposed by the law enforcement and that business entity no longer exists and I was able to reappear. I sacrificed five most valuable years of my life running from them. In those five long years I used many innovative methods to keep myself from everyone and was able to stay alive, and since I got back, I started a new business as a top-notch privacy expert, I now work as a consultant for a few large multinational businesses. I started writing this book while I was away to help people that find themselves in similar situations for whatever reasons, but after writing a few chapters, I realized it would be impossible for me to publish it as I would leave enough paper trail which can jeopardize my own safety again. So I put the project on the back burner and forgot about it. Recently I was looking through some of the old files that I kept on a flash drive and found the file containing those chapters and decided to complete the book as I knew in my heart that this book could help some truly good and honest people.

Customer Reviews

This book I must say is an eye opener for me. There are so much I just didn't know, but I know there

might be a day when we all may need to utilize a method or two that were described in this book to protect ourselves. I bought his book just out of curiosity, I know some people talk about how to get ready for when SHTF situation, I decided to learn a little myself and see what all is involved in this process. I also found the "getting a new identity" fascinating. Take into consideration that it is not always the bad guys who need to hide or need a new identity, more often it is the good guys who need that too.

After reading his other book, I wanted to learn more about this topic, found the book to be full of lot of valuable information that I would not think of otherwise. He gets into a lot of details. There so many unknown factors about disappearing and in my opinion we should know and be prepared just in case...

I found this book as it was on a free promotion, and downloaded it out of curiosity. After reading through the very first few pages, I realized there are lots of people who really have good reasons to get away and start a new life. The author himself had to, or as written in the book. To me this is scary, but nonetheless, lots of good tips here am quite sure someone may have to use them someday.

OK

Poorly written. Not impressed. I learned nothing I didn't already know as a cop.
