Spanish Now! Level 1: With MP3 CD

Synopsis

This updated edition of the combination textbook and workbook is designed as an introduction to Spanish for classroom use. The emphasis is on oral proficiency—conversational speaking and listening comprehension—but the authors also present detailed instruction in the fundamentals of Spanish grammar, vocabulary, reading comprehension, and writing in Spanish. The book is filled with exercises and answers, true-to-life dialogues, illustrations of Hispanic art, and photos that capture the flavor of Spanish culture in Spain and Latin America. In this new edition, the vocabulary sections and readings have been updated to include the latest technology, while the cultural sections now include information about the Hispanic individuals currently making a splash on the world scene.

Spanish Now! uses puzzles, illustrations, and cartoons to make learning fun and engaging, while infusing lessons with Hispanic culture. Spanish Now! is a strong series for either independent Spanish students or classes. www.language magazine.com

This would be best used in a classroom setting with a Spanish-speaking teacher. The CD doesn't have as extensive a collection of recordings as I expected.

The lessons really go over the most essential basics of grammar and pronunciation in a very easy

and comprehensive way. I have been teaching from this book and my student is grasping pronunciation and reading very quickly

Required for a class. Not as good as Como Se Dice, but it doesn't really matter, it's the required text for this class.

I have to agree with other buyers feedback. The book is good however the CD does not match to the book most of the time! It is very hard for a beginner to figure out what is what already, now it is even more challenge to guess which lesson it was supposed to be. And a CD is not really helpful in today's world. It is just so out of date. If you don't have a classroom teacher, just the book and CD, you can't really get a good start. It is missing the basic pronunciation and jump to whole paragraph right away, and as I mentioned above, which you probably can't even find in the book.

This book was required for a class that I am taking at the community college. I purchased the most recent edition and my only complaint is that the CD does not correspond to the lessons in the book. This needs to be addressed.

I have not gotten too far into the book. I brought the book because it was recommend by my Spanish teacher. It seems fine. I tried the CD that came with the book and really didn't care for it. Not sure how it relates to the text.

I had to buy this for a course. There must be more efficient ways to introduce people to Spanish. It also seems weak in conversational Spanish. What do I know? It's not like an expanding world of Spanish speaking.

MATERIAL is very useful!
