## Customer Reviews

LoveBook is a group of individuals who want to spread love in all its forms. We believe love fuels the world, and every relationship is important. We hope all of our works build upon this belief.

A good idea. I've seen similar things before. It ended up unused and donated, though.

This book is stupid. Don't waste your money. Printing free worksheets offline with a little research would be a smarter idea.

This item would be fun for fairly new couples or really young couples. Kinda boring and childish.

Delivered on time, good quality, would buy again

There was a huge variety of fun activities to do with my wife. We would do a few a night and always had a great time and good laugh. There was also some nostalgic value with great twists on some games we played as a children. I would recommend it for any relationship that is looking to spend some quality time with one another.

This is a waste of money. I was expecting something fun and interesting but this was the exact opposite. I will probably give it away or throw it away. I will never use it.

cool book.
