# Intermediate Algebra (3rd Edition)

## Synopsis

The Sullivan/Struve/Mazzarella Algebra program is designed to motivate students to “do the math” at home or in the lab and supports a variety of learning environments. The text is known for its two-column example format that provides annotations to the left of the algebra. These annotations explain what the authors are about to do in each step (instead of what was just done), just as an instructor would do.

## Book Information

Hardcover: 900 pages

Publisher: Pearson; 3 edition (December 31, 2012)

Language: English

ISBN-10: 0321880129

ISBN-13: 978-0321880123

Product Dimensions: 8.7 x 1.5 x 11 inches

Shipping Weight: 4.1 pounds

Average Customer Review: 4.0 out of 5 stars 26 customer reviews

Best Sellers Rank: #20,499 in Books (See Top 100 in Books) #15 in Books > Science & Math > Mathematics > Pure Mathematics > Algebra > Intermediate #116 in Books > Textbooks > Science & Mathematics > Mathematics > Algebra & Trigonometry

## Customer Reviews

Michael Sullivan, III is a full-time professor of mathematics at Joliet Jr. College. His training is in mathematics, statistics, and economics and he has more than 18 years experience as an instructor. His publications with Pearson cover developmental math, precalculus, and introductory statistics. Most recently, Mike has been highly involved in Course Redesign at Joliet Junior College. His experience in course redesign and writing texts for the college-level math and statistics courses gives him a unique insight into where students are headed after the developmental math track, and what they need to do to be successful. Mike is the father of three children and an avid golfer. Katherine Struve is a full-time instructor with Columbus State Community College and has more than 30 years experience in the classroom. She is in tune with the challenges of teaching mathematics at a large, urban community college. She has served as the Lead Instructor of Developmental Mathematics and has been involved in the recent course redesign effort at Columbus State. Janet Mazzarella is a full-time instructor at Southwestern College and has more than 18 years experience teaching a wide range of courses from arithmetic through calculus.

She helped develop the self-paced developmental math program and spent two years serving as its director. Along with Mike and Kathy, Janet has also been active in the course redesign initiative at her institution.

everything went smoothly...

Perfect!

While this book is in excellent structural condition, there is pencil and some ink writing throughout. Nothing that interferes with its purpose.

Renting this book for school. Absolutely awesome! Cheap prices but great quality books. Will definitely rent more books from .

This textbook is a great book for intermediate algebra in math 120 of community college.

My summer class needs it.

Great book

Not very clean
