Decent little cookbook, BUT a lot of the recipes are just in a different order, with different names. Same recipe, different names. Not a true 101 "different" things to do with a cake mix. Don't spend a lot to purchase it!

Interesting read. Bought one for my bf too. Recipes are OK, we've only tried a couple so far. I just took the Lemonade Cake from the oven - it was quick to make, no muss or fuss and I will continue testing as recipes included cakes, cookies, bar cookies, coffee cakes, etc. Quite a variety, as well.

This is a fun book for anyone who enjoys baking, and it has some nice ideas for cakes that go

beyond the directions on the cakemix packet. I wouldn't call it 101 things to do, though, as there are too many recipes that are almost identical to each other, with only a minor difference in ingredients. Also, quite a few of the recipes simply say to bake a cake according to the packet instructions, then use a different flavour of pudding to pour over it, or frosting to decorate it. There are a few good ideas for baking cookies and bars, but again with similarities to each other. On the whole, a nice baking book, but maybe someone could come up with 101 different ideas.

The cookie recipes are amazing and quick! I made three double batches of three different cookies in the time it would have taken me to make one double batch from scratch - and yummmmm, they are soft and delicious!!! I can't wait to try the other "cake" and dessert recipes!

Great ideas for new challenges and all I've tried have been good!

This book is so wonderfull! Everything we've made has been amazing and so simple to make. Truly, it really is amazing what you can do to dress up a basic boxed cake mix! My husband is not big on sweets, but he absolutely loves the cherry/pineapple cake that comes out like a cobbler. Everything was so good that it makes me want to buy the sequel!

I must really like it/ Bought 3 of the book as gifts. Plus a digital copy

Gee, I feel like a bully being critical of this book that so many others have praised, but. . . Many of the recipes are almost identical but have different names or the most insignificant ingredient change. For example, the old favorite "Gooey Bars/Cake/Brownies" recipe appears many times, albeit with different names, sometimes with nuts, sometimes without, sometimes with chocolate chips, sometimes with white chips, etc. Same thing with cookies. There is a basic recipe for making cookies out of a cake mix, and most of us have enough imagination to substitue M&M's for Reese's pieces, or a chocolate cake mix for a yellow for a lemon. And there are probably inadvertent omissions such as the oven temperature. If you're an experienced cook, you will probably find this too simplistic. If you're not experienced, or not very imaginative, then you'll probably enjoy it.
