# Andreoli And Carpenter's Cecil Essentials Of Medicine, 9e (Cecil Medicine)

## Synopsis

Students, residents, and instructors swear by Andreoli and Carpenter's Cecil Essentials of Medicine because it presents just the right amount of information, just the right way. This updated edition has been revised to provide the most current, easy-to-digest review of internal medicine. Comprehensive yet concise, it focuses on the high-yield core knowledge important to those established in or just entering the field. Excellent images and photographs vividly illustrate the appearance and clinical features of disease. Full-color design makes absorbing and retaining information as effortless as possible. Highlights the core principles of medicine and how they apply to patient care.

## Customer Reviews

"This remains one of the easier to read comprehensive books on the body of medical evidence and knowledge available today. The graphics are superb and intuitive. It remains a major pillar of every medical library." Vincent F Carr, DO, MSA, FACC, FACP (Uniformed Services University of the Health Sciences) Doody's Score: 97 - 5 Stars!

It's a book as advertised! This an extremely detailed and in-depth book. Definitely for use as a reference text. I wish I had more time to read it, but being in PA school doesn't allow for much of anything besides reading everything else.

It has been the textbook for the 2nd medical school class that I coordinate at UC Riverside school of medicine. Very readable and with the appropriate level of detail for medical students.

Concise and pertinent information for the busy physician. It helps me with my practice

Excellent resource within the field of Medicine. A textbook that I have use for over 40 years since Madical School and continue to enjoy quite frequently because you never finish learning.

Arrived promptly and of expected quality. She's a real bitch to read, but dat knowledge tho.

Although this is the essentials version, it's still too much. Not good for quick reference.

great book. could be written in a more easier read fashion, but all the information is accurate and presented in a reasonable fashion.

A good reference for those beginning work as a provider.
