The Magic School Bus And The Climate Challenge

Synopsis

Trust the bestselling science series of all time to get down to the facts on global warming, so kids can understand the crisis --and how they can help solve it. Like it or not, global warming is a hot topic that will affect the younger generation more than anyone. So why not turn to the teacher kids love most, Ms. Frizzle! Only the Friz can boil all the hoopla down to the scientific facts in a fun and informative way. With trademark simplicity and wit, Joanna Cole explains why the earth is getting warmer, and Bruce Degen's bright, action-filled illustrations make the science easy to understand and fun to learn. This team brings a new, improved understanding to climate change, engaging kids and empowering all. Teachers will cheer!

Customer Reviews

Joanna Cole and Bruce Degen, the author and illustrator of the Magic School Bus books, have collaborated for twenty years, bringing humor and true kidlike curiosity to science and learning. Booklist heralded Ms. Frizzle as "the wackiest, wisest teacher in picture books." Two MSB titles have been named School Library Journal Best Books of the Year, and they have won countless state book awards, from New York to Nebraska.

we love Magic School Bus, Ms. Frizzle and the class. We use MSB books, science kits, videos and lapbooks for our science curriculum and we are all learning SO much! Nothing like a little adventure to help us learn!

Love these fun learning books! My daughter thinks they are very interesting and enjoys learning and reading.

as described, quick delivery

Great new journey for Ms. F

My class usually really likes the Magic School Bus books but this one left them bored out of their minds. It stinks because I think this is a very important topic.

Great books and they were in great condition!
