# The Ultimate Man's Survival Guide: Rediscovering The Lost Art Of Manhood

## Synopsis

The Upper East Side metrosexual may be good at cocktail chat, but a real man knows how to fight off alligators, create a tourniquet out of a t-shirt, and rescue a drowning person. Frank Miniter's *The Ultimate Man's Survival Guide* shows men how to do all of these and more, including: \* how to fight off a bear \* how to set a dislocated joint \* how to pick the perfect cigar and bottle of wine Presented in seven sections--survivor, provider, athlete, hero, romantic, cultured man, and philosopher--Miniter teaches guys the skills, attitudes, and philosophies they need to be the ultimate man. Clearly written and packed with real-life anecdotes, as well as line-drawings and how-to illustrations, *The Ultimate Man's Survival Guide* teaches men that any guy can be the ultimate man whether he is rescuing a lost hiker, plucking a child from a swift stream, or standing up against injustice.

## Customer Reviews

Frank Miniter is the author of *The Politically Incorrect Guide*<sup>®</sup> to Hunting and an award-winning outdoor writer. He is the executive editor of *American Hunter* magazine and is a former senior editor of *Outdoor Life* magazine. Miniter is also the ultimate man. He has run with the bulls of Pamplona, snowshoed the Klondike, hunted Russian bear in Kaleria, and has survived everywhere from the to the streets of Manhattan. He lives in New York.

This book is a survival guide, but the you must keep your tongue firmly in your cheek when reading it. By that I mean that while it is enjoyable and does have a lot of good information, there are also some bits of information that are more for fun. It is overall a great read.I use for most of my

purchases and update my reviews if anything changes with the products. I do this so other users can get a real feel for the life of the product. You can look at my review which will be close to my purchase date and tell how the product is doing as time passes. I am not associated with any company and all opinions are my very own.

Takes a couple of hours to read. Though I felt I knew a great deal of the information in the book already, it still kept me turning the pages. The most important part of the book.... Men need to take back our right to be men. We've been hoodwinked into believing we have to be something we're not. Don't be ashamed to be a man. Show some class. Be respectful. Dress better, and don't think we have to be so in touch with our feelings, that you begin to look and act like one of the girls. I personally don't want to be a woman. I'm proud to be me... a man. Very well written book. I highly recommend it.

I bought this for my boyfriend for Christmas; he loves the outdoors and everything "manly". He's not much of a reader but I took a chance, and it paid off! He loves this book! He read it for hours after I gave it to him! The book is in sections like on how to be a provider, hunter, hero and also things like romantic and gentleman so hopefully he learns some good tips! He just got me a promise ring so maybe it's working ;)

I bought this book as a Xmas gift for my 2 sons. Lets hope some of what is in this book rubs off on them. Part how-to and part philosophical dissertation. For instance, Miniter tells/shows how to tie various knots he thinks a man should know, but then he goes on to explain why (in his philosophy) a man should know them. If you want your son(s) to grow up into the kind of men I hope my sons will be; capable, without arrogance or cruelty, they could do worse than to read this book.

this book is very well written and I like the content. I recommend it to all teens who have not had a strong father figure in their life. What's in the book contains a lot that my father taught me and some that he didn't. The military finished the job. I don't agree with everything in the text; however, lots of young men could learn a thing or two about being a man in this book.

We haven't yet read this but the three men in the family have read some of it and are pleased. The two women in the family are a little jealous of their new found man skills and want to read the book as well. We'll adjust their man skills to fit us...and they'll be better...

Meh, my big takeaway was how to properly set a table (one of my wife's pet peeves).

This book was a bit of a let down. Maybe I just wasn't in the 'mood' for the style of writing or the message. I tried to push through it, looking for nuggets of value but finally gave up on it. I can't really recommend it to others. Save your money. Not "horrible", but just not worth your time either.
