Rebecca Olien was an elementary school teacher for 20 years. She has since written over 50 books for children and educators. Currently, she is an instructional designer and curriculum developer.

A lot smaller and very flimsy than I expected. I wanted to use it to introduce maps to my third graders. It will be hard to use as a readaloud.

Super small and then... for the price I was expecting g a bit more content. We are still enjoying it though, good intro to maps.

This book is a great beginning to book for students learning how to read and use maps.

Great resource book when teaching maps to early learners.

Great book on maps!

Our Grandson loved it

It was just right for my grandson who is in first grade and interested in maps. I'm sure he'll learn a lot.

good
