Customer Reviews

At times, money is tight and I have been working harder at conserving where I can. One of the ways that I do this is by doing as many home projects myself as I can and conserving in other ways. This DIY Guide is a great overview of so many ways that one can save both money and time at home, by making things instead of buying them, and just generally conserving where I hadn't thought to do it before. I have already put many of these to use, particularly the Christmas ideas, and they are wonderful.

Some of these tips are familiar, but all of them are easy tips to remember for a healthy, happy, organized home. This book is great because it is a collection of all of the best tips and ideas in one place. The bonus Christmas gift tips have inspired me with a few fresh ideas, especially for inexpensive teacher gifts.

I was really looking forward to going through this book and finding projects, tips, and tricks to clean up the clutter as we go into the holiday season. I found many tips and ideas that I already utilized, passed down to me from my mom over the years. However, I found enough new ideas to make this book worth the time and money. One of the most helpful DIY ideas was using dry erase markers on mirrors. I was not aware this would work and as soon as I read it I tried it on the corner of my mirror just in case it didn't come off. To my delight it did!! I am working on a novel and I have been finding it helpful to write details on end roll newsprint hung up around the room. My office is practically wall

papared with it. I've already bought some cheap mirrors and have started the transfer. The room looks creative and pulled together!! Wonderful idea!!! This book is a must for anyone starting out on their own and needing ways to save them time and money. Everyone should have this book as a quick reference just in case.

Fabulous tips and tricks of all sorts. Ones that stood out to me: the pool noodle as car door protector in the garage, the ribbon eye glass / sunglasses holder, several pantry tricks for the little annoying things, the dot method for telling children's clothing apart (esp. because you can add a dot when it becomes a hand-me-down), and more. However, don't glitter glue money from the tooth fairy - it really is a crime to deface money.

This book is very informative with so many neat ideas that I can't wait to try. I'm not talking a few ideas this book is fully loaded. I'm so glad I purchased this and no you don't have to be crafty to do the ideas.

I liked it. I am a fan of DIY projects. A lot of easy quick fun ideas to do with kids

I absolutely love this book! So many great ideas! I have my own cleaning company, and there were so many ideas in there and that I have taken into consideration for my business. And there were also many ideas for me to just do around the house! I can't wait to finish them all! Great buy!!

Every page had something that I wanted to try out! Course, I had to prioritize, but the hacks in this book are genius. The Christmas lights in the closet blew my mind, it was such a simple solution to lighting up the my dark, hard to see closet contents. There are so many more awesome hacks though. Loved this book!
