J. Edgar Hoover: The Man And The Secrets

Synopsis

"The cumulative effect is overwhelming. Eleanor Roosevelt was right: Hoover's FBI was an American gestapo." —Newsweek
Shocking, grim, frightening, Curt Gentry's masterful portrait of America's top policeman is a unique political biography. From more than 300 interviews and over 100,000 pages of previously classified documents, Gentry reveals exactly how a paranoid director created the fraudulent myth of an invincible, incorruptible FBI. For almost fifty years, Hoover held virtually unchecked public power, manipulating every president from Franklin D. Roosevelt to Richard Nixon. He kept extensive blackmail files and used illegal wiretaps and hidden microphones to destroy anyone who opposed him. The book reveals how Hoover helped create McCarthyism, blackmailed the Kennedy brothers, and influenced the Supreme Court; how he retarded the civil rights movement and forged connections with mobsters; as well as insight into the Watergate scandal and what part he played in the investigations of President John F. Kennedy and Martin Luther King Jr.

Very thorough book. Behind the scenes stories

Wow good book

This is the seminal review of J. Edgar Hoover's diabolical and imperial ramrodding disabuse of the American justice system as only he could have abused it. A must read for all Americans.

Could NOT stop reading it. It confirmed what I knew, but recited many more illegal acts this BULLY committed. It is a travesty that his name appears on the FBI building. The only federal building that should have his name on it is a maximum security PRISON.

I loved this book because it lets you know that for a very long time secrets have been kept to use against others not just in today's world. The thing that was interesting to me was how long it went on and no one stopped him from getting all the dirt and they knew he was doing it. I do not like the way Hoover used others.

great book arrived in very good condition and provided informative and enjoyable reading
