Whoppers: Tall Tales And Other Lies

Synopsis

"There are few things as beguiling as a really audacious lie, and the prospect of a collection of them seems almost too good to be true. There are hunting yarns, lies about farming, about insects and animals, about the weather . . . all illustrated to a T." —NYT. Children's Choices for 1976 (IRA/CBC) Notable 1975 Children's Trade Books in Social Studies (NCSS/CBC)

Alvin Schwartz is known for a body of work of more than two dozen books of folklore for young readers that explore everything from wordplay and humor to tales and legends of all kinds. His collections of scary stories -- Scary Stories To Tell In The Dark, More Scary Stories To Tell In The Dark, Scary Stories 3, and two I Can Read Books, In A Dark, Dark Room and Ghosts! -- are just one part of his matchless folklore collection.

I loved this book when I was a teacher. It is sad to see it sell for such a cheap price. Funny stories and drawings. I could quote a lot of the stories in it. I already had a copy, but I bought one for a school librarian who had never heard of it.

This book is about tall tales and other big lies. Some of the stories are so weird they are funny. And some are not. The book has stories like a man who caught such a big fish that the picture weighed

20 pounds. And some of tall tales you have probably heard before. I liked the book because I like tall tales and funney stories. The stories are pretty short. The longest story is about four pages long. In the book there are about 25 stories. I would recommend this book to K-5 grades who like lies.
