Radziunas's story of often frightful and primitive medical misdiagnoses for her developing lupus is, unfortunately, often the case for lupus patients. Like Joanna Permut's *Embracing the Wolf* (LJ 8/89), this autobiography is about a typical, active, trusting, middle-class housewife, who enjoys her lifestyle until her health suddenly changes her world. This is an excellent book for people who have lupus, those looking for answers to symptoms that have not yet been explained, and required reading for medical students, interns, and rheumatologists.-Ruth Amernick, San Francisco

This is a must read for anyone with Lupus. Good read!

I felt like I was reading about myself, couldnt better describe the pain and frustration in waiting for an answer - excellent book - highly recommend!

Very informative. I cried all night when I read this book because I realized I was not alone. This author had lived the diagnosis nightmare that people with lupus face. The author also explains the "imposter" illnesses that can mask lupus symptoms. Five stars are not enough!
