We got this for my 20 month old (tractor obsessed) son at Christmas. He LOVES it! Great book with lots of pics of old tractors, new tractors and tractors I've never seen. Very informative and perfect if your kid loved tractors! My son pretty much never puts it down. We have to lug this book around everywhere we go. A MUST HAVE FOR YOUR TRACTOR LOVER!

My grandson loves all things tractor. We purchased this book for him as a birthday gift for his 2nd birthday. He loves it!

I got this book as a Christmas gift for my 4 year old son so this is my review as he hasn't seen the book yet. I love it! It has all the information you could want on tractors. It even gives a history of how modern tractors have developed and what tractors of the future could be. I had my husband look over it because he, being a farmer, knows his tractors and he said he didn't see anything wrong with all of the descriptions. This book has a ton of pictures and is actually thicker than I thought it would be. My tractor crazy boy will LOVE this book.

Great book-my great grandson wont be without it-carries it everywhere.

My 5 year old grandson loves this book.

I bought this for my 90 year old former farmer great uncle who has dementia. He loved this book and looked at it for hours. Even his old Farm-all tractor is in this book.

Full of great pictures of tractors. Real people do want they like. I am a bit bias but my son is in this book on page 50-51. His friends who he competed against also in the book. Lots of history in those beautiful pictures.

Great book! Filled with all things tractor. My tractor obsessed 4 year old loves to just sit and look at all the pictures. It's not hard pages so not the best for a younger child but great for a child that will be careful enough to not rip pages
