# Environmental Science (3rd Edition) Student Workbook

## **Synopsis**

BIOZONE's Environmental Science Student Workbook introduces students to the Earth's physical and biological systems, and examines the interactions of humans with their environment. This edition includes a wealth of current content and aligns the workbook to its supporting digital resources. Structured on the APES curriculum and aligned to the IB Environmental Systems and Societies, the comprehensive coverage of this text makes it highly suitable for any high school environmental science course. Content includes the Gulf of Mexico oil spill and the Fukushima Daiichi nuclear disaster, and in-depth coverage of energy extraction issues, pollution, and the wider environmental implications of urban development. The ideal companion to both the APES curriculum and the IB Environmental Systems and Societies.

good quality thanks

Better than I expected! Most expensive activity books are not worth the money, but this one might actually be worth it.

Great content but for ib Environmental Systems and Societies you have to flick forward and back a bit.

This is supposed to be a practice book, but the copy we got was all marked on and the answers

filled in. Useless.
