The Perfect Tool

The Beekeeper's Journal is the perfect tool for beekeepers and beekeeping enthusiasts to keep their thoughts, recipes, inspirations, sketches, to-do lists and more. Beautiful and Inspirational Store your notes, journal entries, and daily beekeeping records, observations, and to-do lists within the pages of this beautiful and inspirational journal. Learn from Expert Kim Flottum Photographs and illustrations on each spread complement the helpful tips, anecdotes, ideas, recipes, how-to and images from beekeeping expert, Kim Flottum.

Kim Flottum brings a background of twelve years of plant science, honey bee research, and

basic farming to his thirty years as the editor of *the Bee Culture* magazine where his main occupation is finding the answers to the multitude of questions that beginning, intermediate, and even advanced and experienced beekeepers bring to the table. He teaches beginning and advanced beekeeping courses, travels extensively to educate and lecture, and contributes to a variety of other publications on the basics of honey bees and beekeeping biology, the business of bees and pollination, producing and using varietal honeys, and a host of other subjects. His books, magazine articles, interviews, and blogs are widely read for both their fundamental and advanced contribution to beekeeping knowledge. His magazine platform gives voice to his social commentary on topics ranging from genetically modified foods to pesticide abuse to both good and bad government regulations in the industry. He is beekeeping's leading advocate for fundamental honey bee safety including insuring excellent honey bee health, providing extraordinary forage, and minimizing the use of agricultural pesticides.

Oh I love this book. It is filled with little tidbits of helpful information and is really a cute book/journal. I write in mine every time I come in from the beeyard. Very helpful suggestions as well. Nicely made

Am new to beekeeping. This is informative, entertaining and useful.

Love this journal. Opens flat, the pages are thick and there is enough open areas for sketches to remind me of issues going on in the apiary. Wish they'd issue a new one, I would definitely buy if it was the same quality and format.

Not even the bee suppliers have this journal. Fun, witty, poems and check points for the different seasons to get things done. Lots of room for my thoughts.

As a Newbee beek last Spring ('14), I received this as a gift & I just love it. It's very helpful for keeping my hive journal & is filled w/ lots of helpful info, tidbits, recipes, etc. I've met Kim Flottum & this journal is written the way he speaks. Information that is easy to understand.

This was a gift for my husband and it was a beautiful gift. I love it. Very great quality.

very nice. i really like it.

Awesome Product!
