Best Sellers Rank: #1,530 in Books (See Top 100 in Books) #34 in [Books > Children's Books > Activities, Crafts & Games > Activity Books](#)

Customer Reviews

This book is exactly as it says, the princesses. There's various shots of all the princesses (about 3 of each), mostly not from their movies exactly but in situations they'd encounter in daily life. The lines are all in pink instead of black, but (as per the photo) with decent colouring this is not an issue. Each page includes a small caption about the princess photographed but it is not presented as a story book. The paper is thin, dull white and almost see-through. It takes well to coloured pencils and crayons, but I would caution against other media. The book is very small, but it does come with 31 images to colour and all in all I would recommend this to adults and children that are fans of the Disney characters.

My daughter was very happy with this coloring book. Liked the fact that it wasn't huge as we were taking it on a plane and wanted a light weight book for our carry on bag.

Very cute but the price is too high. It is for a gift so I will keep it for my grand daughter.

The lines are pink, but I don't mind it. It's perfect for coloring with the kids. A lot of great pictures of the lovely princesses.

No where near as nice as I thought it would be. Light and flimsy, but still using it in an Easter basket

My granddaughter was very disappointed in it. The book didn't have many pages in it and the lines were light so it was hard for her to color

The outline of each picture is pink and not a crisp black. Overdoing the princess theme

Very nice book. The granddaughters all love it. Have purchased several.
