# Europe Political Wall Map (enlarged & Tubed)

## Customer Reviews

Very detailed, great for planning out trips. It's easy to get lost staring at this thing

I read a lot of history books.... I'm now reading Winston Churchill's series on World War II. These maps are a real help. It's amazing how events come to life when you can see how close European countries really are, and where they are in relation to places like Russia and India, and North Africa. We in America are used to continent sized distances.... In Europe, sometimes battles were so close you could almost walk between them. And, it's easy to see why naval forces were so important, and made such a difference, too.....both in Britain and the Mediterranean.

The map is beautiful! I went on a tour across Europe this summer and bought a flag pin everywhere I went. I have them all pinned on my map, which is hanging on my wall, and it looks great! The large size helps the viewer see all the country names clearly. And the colors are beautiful! Another thing I love about this map is that all the country lines and names are up-to-date!

After returning from a trans-European vacation, I wanted to get a map to track my travels in the area. The map is large and fits very well on my wall. With some pins and string to show routes, it is a great display piece and has sparked a few conversations already. It was a little frayed coming out of the tube, but that isn't an issue when actually hung. I'll definitely do the same for the other continents I get to eventually!

A little too much Russia but the rest of Europe wouldn't fit on the map in a rectangular shape otherwise. Good detail on the countries and not too much. Best when observed close up.

If you want a large wall map of Europe this one will fill the bill. All the large towns and major highways are present, I would love to see the same map from 100 years ago to see the changes in Europe.

Learn your history and geography . . Who knew where all these countries are? I do now !

My Mother loved it! Loved that it included the Middle East! Was a birthday present!
