Superstructural Berlin: A Superstructural Tourist Guide To Berlin For The Visitor And The New Resident

Synopsis

Superstructural Berlin is an experimental sociology of the city of Berlin. A mix of pamphlet-polemic, cultural critique, and weird colourful mapping enterprise. It tries to investigate the city as a series of infrastructures: drugs, nightclubs, arts, new economy and tourism.

Nicolas Hausdorf is an Independent artist and writer living in Berlin. He writes for Vice Berlin, Cobra RES, Offline Samizdat artist collectives etc.

Great, quick read. The ideas are pretty interesting, as long as you don't expect in-depth analysis. Think more like a pamphlet or a zine, less like a "serious book". My biggest complaint, however, is that nearly 40% of the pages are taken up with illegible hand-drawn diagrams. Why didn't somebody clean those charts up in Illustrator before they released this book? I could do it in an afternoon, for future reference. Prices negotiable! ;p

mostly about the drug culture in Berlin.

Super Structural Berlin reads as a comprehensive and juicy dissection of the developing character of Berlin as of late providing honest truths for curious newcomers. I'm decoding it as a tasty love / hate letter to the city documenting the simultaneous lightness and darkness that the city gifts its inhabitants. It also serves as an entertaining relic or time capsule for any one who has done their

Berlin time. The illustrations can sometimes be cryptic and playful but this follows the overarching feel of the essay. A very weird experience just like the city itself actually.
