## **Synopsis**

Werewolf Carter Sinclair is on the hunt. He's tracking a newly turned vamp, a beauty with bite named Lauren McIntosh. Hunting her is the easy part. After all, no one can hide from a wolf. But once Carter gets the vamp in his arms, his easy mission suddenly goes straight to hell. One taste, one bite that should never have happened and Carter is hooked •mind, body, soul. Nature has plans for him and Lauren. They're to be mates, but there is a vicious vamp waiting in the dark •a killer who has already claimed Lauren as his. Now Carter has a new mission •keep Lauren safe at all costs. Make her fall for him. And hide all of the very dark and dangerous secrets that fill his closet. He needs Lauren to trust him, he needs her to stay with him, and the last thing he wants is for Lauren to know just how deeply he's already betrayed her. What she never knows can't hurt her, right? Their mating is forbidden, but Carter is about to break every werewolf and vamp rule out there in order to claim Lauren. And those fools who try to get in his way will find out just how deadly his beast can truly be because there is no one in the world more important to a wolf than his mate. Author's Note: If you love hot alpha wolves and sexy vamps with bite, this book is for you. Lust comes first and fast in the "Bite" books, but love soon follows. MATING BITE contains 52,000 words.

## Customer Reviews

This one was not as good as the first one. I felt there was something missing. Maybe because their meeting started with betrayal. Carter was hired to track and bring Lauren to her maker. After they bite each other due to life saving circumstances, he realizes she is his mate. He keeps the secret of his initial betrayal from her, hoping that he can kill her maker before the truth is revealed. Lauren came off has very soft and innocent but yet she was a very popular stripper before she became a vampire. Hopefully we get Riley's story next.

'Mating Bite' by Cynthia Eden is Book Two in the "Bite" series. This is the story of Carter Sinclair and Lauren McIntosh. This can be a standalone book if you choose to do so. Carter is a Werewolf who's pack leader mated with a Vampire named Isabella. When Isabella and he were being attacked and he was injured Isabella gave him some of her Vampire Blood. Vampire blood to a wolf that isn't your mate makes you crave Vampire Blood which now Carter has fallen victim to. Note: this portion of Carter life was in the previous book and this one picks up with Carter leaving the pack because he didn't want the other members to know how much he craved Vampire blood and was also scared he might try to hurt Isabella. But he is contacted by Isabella's cousin, Antoine who is not a good Vampire to find his missing "mate" and in exchange he will see that he gets all the Vampire blood he needs. But when Carter goes to find Lauren who is a newly turned Vampire (by Antoine) she is on the run from him. Carter who deceives her into thinking he is trying to help her get away from Antoine quickly learns that she is his mate and he will do whatever it takes to keep her safe. "My honest review is for a special copy I voluntarily read."

Book two in this series and it's still a storyline that revolves around the forbidden biting by werewolves of vampires. Werewolf Carter has seen first hand that for a favoured few it can work out but for him the lifesaving blood of his alphas vampire mate had disastrous consequences leaving him addicted to vampire blood. It's ok though as he's taken a job hunting down a missing vampire and he's been promised all the blood he needs. Slight problem though as not only is his prey gorgeous but it just so happens that Lauren is his mate! What a pretty pickle to be in, wanting to protect Lauren but not letting her know just why he has really been chasing her! I've got to hand it to

this author she always delivers incredibly imaginative and steamy paranormal stories. Ok yes this book is slightly shorter than some she's written but there's still plenty of unique and interesting ideas going on. The idea of the different species not sharing blood is a new one to me but it's fleshed out here with very intriguing possibilities setting up. Plus this time not only do we get hot protective werewolves crossing swords ( or should that be fangs ) with incredibly fast vampires but witches too are thrown into the mix and I'm curious to see how that pans out as the series continues. If it's chemistry that floats your boat than this couple will tick all your boxes plus there's a very nasty vampire to boo and hiss at. I liked that characters from the first book *Forbidden Bite* showed up and yes we are introduced to new ones who surely must get their own books. Bottom line is I enjoyed this story but there's a cautionary tale here as not telling the truth can cause all sorts of problems! This voluntary take is of a copy I requested from Netgalley and my thoughts and comments are honest and I believe fair

Wow, this was one wild crazy ride! I absolutely loved this story and the extremes this couple had to go through to find their happy ever after. Lauren was not born a vampire, she was transformed which is a rare occurrence. She is struggling with this unwanted life and all she longs for is to return to her human form again. Carter was given blood by a vampire to save his life and in the process has become addicted to vamp blood. In order to appease his thirst he has become something like a bounty hunter. His current job is to find Lauren and return her to the man who claims to be her mate. These characters have so many bumps in the road on their journey to togetherness that I was certain at one point there could not possibly be a happy solution. Each time I felt sure they were traveling in the right direction another obstacle arose. Instead of aggravating me, these problems added to the overall wonderfulness of the story. They were completely within the realm of normal for a vampire/werewolf romance and never felt contrived. My emotions were all over the place and I couldn't get enough of it. Of course by the time I reached the end I felt a bit exhausted and strung out and just so dang happy and content. No one does a better protective, possessive hero than Cynthia Eden and I'm quickly becoming addicted to her brand of alpha. ARC provided by NetGalley for an honest review Dual POV Safe No apparent triggers other than lots of beheadings, silver bullets and stakes through the heart
