Just what I needed for my online micro economics class.

Textbook as described.

Great buy, arrived in great condition.

Brand new and at a price that can't be beat.

I needed this book for my short term Economics 1 class. This book has a lot of information! Its kind of dull at times but a must read if you are taking Econ 1. I bought it used so i did not know about the online options. I passed my class with a C (should've been a B). Economics is hard it's not an easy A.

It was a good book for giving you an overall view of microeconomics. Was easy to read and flowed well. I took Micro before Macro and that is definitely the order to take this course. If you take Macro first, you may find it a little confusing.

Received it sooner than expected and was amazed that what I thought would be a very used book was like brand new! So glad I decided to buy "used"

Book didn't come with access card, but got a \$10 off and a free book.
