## Customer Reviews

This book might be good years before a death when you're trying to make plans but after a death needing questions answered about what needs to be taken care of, how soon and the variations state-to-state it was not helpful.

well written

what a great resource, with checklists and lots of information in a very easy to read format, the glossary was very helpful. For some one with little or no expertise for this, this resource was very helpful.

This book is very informative and the legal language is easy to understand. It is also easy to look up information because of the way the book is organized.

One of the most thorough and complete (if not frightening) books I've found on the subject.

comprehensive and informative. Delivered very promptly. Thanks.

Arrived on time and was completely satisfied thank you

Simply written and easy to understand! Author handles the basics very clearly. What more is there to say? Not much!!
