How does a fact make it into a Weird But True book? First, it has to be weird. Our team of editors and writers scour the news, the latest discoveries, Internet gems, urban legends, wacky myths, and tantalizing tidbits to find a fact that's really weird. It also has to be true. So our researchers check every single word to make sure the fact is 100 percent accurate. It has to look cool. Our photo editors and designers find the perfect weird picture or the most dazzling weird design to make each fact jump out at you. Then we put them all together in an amazing-looking book that's so much fun kids can't put it down. And here's a weird-but-true fact about Ultimate Weird But True 2: It took a team of 5 editors, 2 writers, 4 designers, 3 photo editors, 2 researchers, and more than 20 experts to make this the weirdest, most ultimate book around.

My daughter can't get enough of these, we read them together, and she can't put them down herself, I never would've guessed my 9-10 YO would be interested in this stuff, but it makes sense, I think most of us were looking for all kinds of odd stuff when that age (and maybe still are, I've enjoyed sharing it with her;-]). I think this is maybe book 3-4 of this series, she can't get enough!

My son LOVES these books! We have purchased every one of them. For an eleven-year old kid who dislikes reading immensely, I'm amazed every time I find him engrossed in the pages of these books; in fact, he keeps them all stacked by his bed. Then, he'll call me in and before I know it, we are BOTH engrossed in the incredibly interesting facts on each page. The only downside is that time will slip away from you as you find you (as an adult) can't step away from the pages...Keep making these books National Geographic--we want more!

My 9 y.o son loves this book, and I do too!

My kids absolutely love this book!....I highly recommend it to any curious and imaginative child!

My grandson and I love reading this book together

I bought this for my great grandson who is 6. He picked it up immediately and began looking through it. He really uses it a lot. The photos are great and there are many interesting facts. I think it is very well done and really holds children's interest.

Don't waste your money. This was boring and like a Guinness book of World Records. The one hundred Weird But True (blue and yellow cover) was more entertaining than this. Not that happy.

Really great book. The kids enjoy flipping through it and reading their favorite "weird but true" stories to me. As a mom looking for children's entertainment that does NOT include a screen, this book has been a fantastic.
