# Teenage Bedwetting: Everything Your Child Wishes You Knew!

## Synopsis

Bedwetting in teenagers is rarely spoken about and carries a lot of stigma and emotional pain with it for the sufferer. Parents rarely understand the emotional struggles and physical problems their child is going through and what their role and their family's role in the wellbeing of their child is. As parents, there is a lot we can do to ease things in a home with a bedwetting teenager that will barely cost anything. The advice and interventions suggested in this book are simple and practical and will create a big change in your child's life both emotionally and physically. Learn how to communicate with your child properly when they are dealing with embarrassment and vulnerability, what to do when they're going off to camps and sleepovers, and much more here. Choose to transform your home from chaos and tension to a fresh, clean and happy home today!
