Customer Reviews

This is a great addition to our school library. It was just as described and arrived very quickly. Thank You for your outstanding service.

Great book for kids! My 9-year-old son loves these books! We read them in just an afternoon, but they are a great interactive family activity! They are also very informative and potentially life-saving. Read them all!

I purchased as a gift. The book is small. I had time so I just bought a couple more.

My youngest daughter (age 10) is so into these books. She loves to make different choices within the books to see the various outcomes.

I loved the book. I learned so much from just one chapter. I would give a compliment 5 stars because...I could never put this book down.

Grandson really enjoyed it!

Had higher hopes for a good story. Its an interesting premise for a book, but this is a fail. Wish I hadn't wasted my money.
