Customer Reviews

the book contains 8 jimmy reed songs along with a CD of backing tracks. maybe I did not read the description properly before purchasing the book but it did say....easy-to-read authentic lead sheets.....which I understood to be lead guitar riffs. this is not the case. I mainly bought the book to get the eddie taylor lead riffs for Honest I do but I was very disappointed, there are no Tabs for lead licks at all in the book, except for a few intro licks written in sheet music! the book would be good for singers who want good quality backing tracks.

You want to play along with Jimmy Reed. This book won't get you there. You would be much better off watching instructional videos on YouTube. The authors managed to drain all the "blues" out of

Jimmy Reed's songs, and just present the reader with chords and standard notation. That's not Jimmy Reed.
