Customer Reviews

I have to agree with "tomtrumpet". I was seriously disturbed when I went through the diagnostic tests with my daughter. The very first problem on one of the very first tests has the words "immediatly" and "enviroment" as being spelled correctly. What?!?!? I thought I was going insane. Maybe I read the answers for the wrong test?? Nope. Those are the words they had marked as being spelled correctly. I have not gotten past the diagnostic tests, and am now, seriously considering whether or not I want to proceed. I expected more from a book that promises "Better Spelling in 30 Minutes a Day." [I do realize book titles should be underlined, but was not able to do that on this review format. :)]

This book is terrible the print is horrible on my kindle

This is a great book for anyone who wants to improve their spelling. It has quizzes and fill in the blank responses.

A bit too technical for the intended purpose: helping others to spell properly.

I'm a teacher and this is a great resource to have in your classroom!

I believe that every parent should buy this book for their child. It's genius, I wish, that I had found it earlier in life, it would have save me from a lot of embarrassing moments. My spelling has improved.

Good book and has helped me a lot.

very good book
