Escape From The Great Earthquake (Ranger In Time #6)

Synopsis

Ranger travels to San Francisco and meets Lily Chen. She was sent from China to America to work as a young servant, but she dreams of studying to be a doctor. When the Great Earthquake hits, Ranger arrives in time to rescue Lily from falling beams in the mission house where she lives. Together they flee to safety, stopping to help another girl, May Wong, save her little brother from the family's collapsed market. Lily and May try to make their way through the ruined city with Ranger at their side. But can they escape crumbling buildings and raging fires, all while facing anti-Chinese discrimination?

Customer Reviews

Praise for Ranger in Time: “This excellent story contains historical details, full-page illustrations, and enough action to keep even reluctant readers engaged.” -- School Library Journal “The third-person narration expertly balances Ranger’s thoughts between the appropriately doglike (squirrels! bacon!) and the heroic (Ranger’s drive to find and protect).” -- Kirkus Reviews “McMorris’s richly rendered illustrations heighten the plot’s many moments of danger and drama, and Messner incorporates a wealth of historical details into her rousing adventure story.” -- Publishers Weekly “Readers will love following Ranger on his

thrilling adventure along the Oregon Trail. What a great way to learn about history! --

My seven year old son just loves the *Ranger in Time* books. They are very enjoyable to read and cover key times within history. This edition was interesting as it covers prejudices for Asians during the time of the 1906 earthquake. I'm not sure my son fully understood what it all calculated to, but he certainly got a taste of what it was. We have all editions of *Ranger in Time* and have enjoyed everyone of them.

My son LOVES these books. He's 9 yrs old, and he has loved this series. He was so excited to get the newest book in the series and can't wait for more to come out!

The book was in excellent condition and came in the mail in the exact time estimated. My nine-year-old son loves these books! In fact he is already finished reading this book, ended so within three days of receiving it.
