Customer Reviews

Tim Kirk is a senior examiner and a former deputy chief examiner for IB, and was a member of the team who wrote the syllabus for the 2007 Physics course. He is an experienced workshop leader and has taught for over twenty years in a wide range of UK and international schools. He currently teaches at the Godolphin and Latymer School in London.

When I taught IB Physics, I always wanted my students to use Tim Kirk's IB study guides because they are succinct and accurate. They are the perfect guide for students use to prepare for unit tests and IB papers 1-3. The guide's strengths include organization, examples, graphics, and practice questions. As a physics tutor, I recommend this study guide to the students who take IB physics. They call it their bible!

An amazing help throughout the year and corresponds with the ways in which IB teaches about assessment and reviews

As a tutor of a student taking the second year of IB Physics, I found this Guide to be very helpful.....my background has been AP B and AP C, so this was a definite help.

I like the short notes and IB questions at the end of each chapter.
