Kindle Bestseller Publishing: Write A Bestseller In 30 Days! (Beginner Internet Marketing Series Book 5)

Synopsis

Write an Kindle Bestseller in the next 30 Days! Sound too good to be true? Well, with the right strategy and proper research before you start, it is absolutely possible, even if:- you are not a writer- have no marketing experience- don't have a large following yet As a 6-time #1 Bestselling Author, Gundi knows a thing or two about writing & publishing bestsellers. All her books reached #1 within just a few days of publishing and over time, she developed a Step-by-Step, proven and easy-to-follow System that can help you reach Bestseller status with your very first book. "Kindle Bestseller Publishing" is part 5 of the "The Sassy Way" series, that teaches Internet Marketing to total beginners. You might not think of Kindle Publishing as a marketing tool, but it is actually: One of the fastest, most efficient ways to build a following online! For your blog, your social media platforms, your business or any service you are offering. In addition, KINDLE PUBLISHING offers the following BENEFITS:- The Prestige of being a published - or even Bestselling - Author- Instant Authority in your Field- New clients and customers on auto-pilot who will trust you a lot more, because you have already proven yourself- Passive Income- Automatic List Building. Email marketing is widely considered the most powerful marketing technique of all, more than Facebook and Google Ads combined. Publishing a book on can help you build your mailing list on auto-pilot - and even pays you to do it. This book will teach you STEP-BY-STEP how to go from zero to published - and - possibly a Bestseller! It is NOT an in-depth WRITING COURSE although some basic instructions and tips are provided. "Kindle Bestseller Publishing" focuses on the Marketing aspects of publishing a book on and in particular, what it takes to reach Bestseller status - the "science" behind it. Important areas that will be covered include:- Researching profitable Book Ideas- Understanding Amazon's Algorithm and how new readers can find you- How to optimize your meta data, including your book title to trigger Amazon's algorithm to promote your book heavily- Category and Keyword Research and how Bestseller ranking on Amazon works- How to market your book during Launch Week and much more. Are you ready to write and publish your first Bestseller? Then, scroll back up now and hit the BUY Button

Customer Reviews

This was a very helpful book. Some things I already knew but the knowledge I gained on things I didn't was worth every penny I spent. I have already downloaded the rest of the books and will be looking forward to reading them. Thank you.

I started reading this book with excited anticipation. I have been wanting to write a Kindle book for a while but found the information online daunting and confusing. This book is exactly what I was looking for: easy to follow, well researched and to the point - no fluff, no sugar coating, just the facts (plenty of actual, usable facts). For the first time, I feel I have the tools to publish on Kindle and a Bestseller no less. I see what needs to be done and the progression to get there in a professional way. The author even gives a 30 Day Kindle Bestseller checklist as a bonus (one of her marketing tips to grow your list). I downloaded it and now I have a ready-made map. Well done! I have read a couple of the author's other books in the Successful Blog Series and have found them to be, just like this one, the perfect blend of solid information and ease for a beginner like me. Highly recommended.

If you're new to or curious about Kindle publishing, check out this nifty e-book! Geared towards beginners, this book describes the Kindle publishing process from start to finish in great, digestible, easy-to-understand detail. I'm far from a tech noob, but I previously didn't even know about

90-something percent of the tips shared in the e-book! As a writer, I now have the incentive to start Kindle publishing, which is actually more profitable than blogging and boosts the results of blogging.

I absolutely loved this book. Its to the point and removes all the guesswork involved in self-publishing. It focusses on the shortest possible time to write a bestseller. The author is clear, detailed and gives numerous examples and links that clearly indicate experience and knowledge of her subject!

I really think someone contemplating Kindle publishing someday should read this book initially. While other books do explain parts of the process this one gave me personally a much broader overview. It also delivered on the intricate details much better than any other resource I have found to date. She includes many resources either directly from her own business or other people endeavors that may help, and many of her choicest ones are actually free! Nearly everything is covered here; from costs, the algorithm, how to make an excellent outline for your book, crafting the all-important title, what are keywords, and choosing a cover designer. Plus she focuses on social media particularly well and why a website and/or blog page could become an indispensable link if you aspire to actually earn money from your book someday. Of course this does require some work on your part. She writes in a spirited fashion turning a diverse
“subject” into something fun and easy to follow along or implement. In summary; all the core foundation pieces are discussed in one place making life a little easier for those of us striving to become outstanding authors someday.

Anyone who is scared to publish a book should read this. Clear, precise and well explained! Step by step it guides you through the complete process.

1. Very easy to read, enjoyable. I almost could not put it down. 2. Very thorough, well detailed material on the subject. She will give you a comprehensive information about the real steps needed to publish your book. 3. In comparison with other books I read from famous authors and #1 bestsellers the major difference and competitive advantage of Gundi's book is that 'she tells you all'. Others will give you the knowledge-base you need to grab the publishing business in understanding what you need to do, but they want to hook you up on their couple of thousands of dollars worth trainings and to become the member of their 'club'. They promise you that this is the (only) way to guide you through the publishing process and to be able to promise you the bestseller status. Their

books are just a ticket to the door.⁴ BUT here comes Gundi's book. She will tell you and shows you exactly those steps, those websites, those pages, those links, and those clicks that you would get from others only by paying hundreds or thousands of dollars on their training programs.⁵ Other books I read were also great. No doubt. I loved a few of them, but again those did not go deep enough to leave you alone in deep waters. Gundi's book tells you exactly what to do in that deep water unattended. And so, I think this is her competitive edge and what you get from her book. Unless you prefer a personal guiding hand AND you have a hundreds or thousands of dollar extra to spend out of your pocket. So much so, that I decided to purchase her other books as well to learn in the deep how to manage step-by-step other related matters, such as SEO, Blog and social media marketing without the necessity of opening my bank account.

This is another great book of the "Successful Blog series". It shows you how to strategically plan publishing your ebook and how to market your Kindle publishing to become a bestseller author or even #1 author. The author proved her strategy with five #1 rankings in a row. AND instead of just writing a book it shows how you can make it a part of your whole marketing for your business. It is not about your writing style, but all about making your beautiful Kindle publishing creation successful. Easy to read and understand, conversational as the whole series. A Step-by-Step guide to your first Bestseller and an in-depth understanding of Amazon's algorithm.
