Welcome To Israel!

Synopsis

Reading *Welcome to Israel*, children meet Israeli kids their own age, who show them Israel from Tiberias to Eilat and teach them about Israel's history, geography, politics, and culture. Children also see the day-to-day lives of their new Israeli friends, who write e-mails in Hebrew and go hiking in the footsteps of their biblical ancestors. Creative and interactive features of *Welcome to Israel* keep children fascinated by the wonders of Israel. These engaging elements include probing questions that stimulate critical thinking, map-reading activities that teach Israel's geography, key Hebrew words with English translation, and discussions of Jewish values. Full-color photos, maps, and whimsical illustrations make the excitement of Israel come alive. Biblical quotations deepen the book's historical and spiritual perspectives. *Welcome to Israel* inspires love of Israel!

Book Information

Age Range: 9 - 11 years

Grade Level: 4 - 6

Customer Reviews

Rivlin-7th generation Jerusalem, is a writer & filmmaker Freedman is president and Peggy Meyerhoff Pearlstone Professor of Political Science at Baltimore Hebrew University.

This is a great book. It is written for kids, maybe 8-12 age range, but can be good for adults as well. It really breaks down everything with no agendas just facts and a clear timeline history. I have been working at a Jewish school for almost 10 years now and I learned new things while reading this book. I would really recommend it, even for adults who want an easy to read understanding of Israel

I may edit this review after we finish using this resource, but so far it's been really helpful to my kids' study of Israel. We're conservative Christian homeschoolers and I stumbled upon this book recently, when I was looking for information on contemporary Israel as well as ancient, or biblical, Israel. This book is a really interesting find. First of all, it's more of a textbook. I thought it was going to be a nice 32-page picture book, but it's thick with many chapters. Each one goes into great detail about something in Israel's history, including contemporary history. IN fact, it is so detailed, I plan on skipping some of the chapters until my kids are a bit older and need to learn more modern history. For example, it covers all the modern conflicts with Egypt and the gains/losses from each war. It even has many photos. But the surprising part is that it is for little kids. Maybe not very little, but we are using it with my third grader, and I plan on using it again in a couple years when they can handle more information. It comes across as sort of a political primer, but not "political" in the polemical sense of the word. Just keeping you up to date on a very complicated and lengthy subject! Israel since 1948 is barely known by adults, let alone children. So I'm really intrigued to have this on my shelf.

Approximately 4th grade readability.

great book

my grandson said it was OK but he didn't finish it. I think he will enjoy it more if taken with us on our trip.

Great book for the kids. Both my daughters love this book.

Easily written for youth. I believe the book will be of great benefit for children going to Israel. Good pictures as well.

Great Book!
