For me the index at the back of the Urantia Book published by Uversa Press was better for me and more user friendly, about 300 pages. I gave my Concordex away, and there are also free Urantia Book indexes online also. I did purchase "Index To The Urantia Book" which i think is out of print to use with my Urantia Book published by the Urantia Foundation. It's the same index found at the back of the Uversa Press edition. The Concordex i bought used also smelled like mold. The Concordex is probably excellent for some people, but not for me, that's all.

This is an amazing piece of work! Very thoroughly put together and indexed. easy to use. the references to the Urantia Book are accurate and makes study easier. The dust cover is a must have! It contains many shortcuts and references to the Urantia Book. A very well done companion to the Urantia Book.

So far I've had a hard time trying to find things I've found before, but I do appreciate all the work it must have taken to put together!! I'm still glad I have it, maybe I'll figure it out.

I have purchased numerous copies of both the Urantia Book and the Concordex and passed them

on to others interested in learning about the history of our planet and to have God's love and plans for us revealed.

If you have read or own the Urantia book this is a must have to add to your library! The Concordex makes navigating so easy to read!

The Urantia Book is HUGE. It is filled with religious documentation. Unless one has a photographic memory one needs this book to find things in the Urantia. A true researcher has to have this book.

Wonderful study aid for The Urantia Book! Great for cross referencing. I would highly recommend buying this book. The Urantia Book is a breathtakingly beautiful book and this concordex enhances exploration of it.

I love Urantia Book and all that links with it. Huge work was put into Concordex and this helper always can refresh my memory or quick search any place in UB.
